**Tables**

These little tables are the outcome of a long and passionate research on gold, silver and copper leaf plating of wood. A young craftsman learnt the ancient technique to develop it with his own compositional language. His ability rests with knowing how to lay the "leaf" on a manual drawing. Several layers are needed but the final result is charming. Here we offer our selection of tables with a white, amaranth or tarnished background and applied leaf. Glass tops are varnished.
